CERT
GERMAN CERTIFIED

Built to meet the ultimate / unexpected challenges
X'treme cranking power with cyclic characteristic
Fully imported from an International Brands' manufacturer

Toughest and highest quality of its class

X'tra terminal suitable for various cable connectors to your leisure needs

Dual Terminal

- ① New Special Tissue / UMF (Ultra Micro Fibre)
- Increases life span by reducing shedding of active materials
 - Resistance to vibration

- ② Low Electric Resistance Enveloped Separator
- X'treme cranking performance*
 - Prevent internal short-circuit between positive & negative plates

- ③ Dual Terminal
- Quick & easy attachment to accessories
- ④ Magic-Eye Indicator
- Easy to check state of charging
- ⑤ Upgraded Pasted-Cured Plate
- Extended Reserve Capacity (RC) with cyclic characteristic**
 - Resistance to vibration, shocks & premature failures
